

Description:

LiWa Finish Varnish is recommended to seal and smoothen the surface of modellations done with the light-curing resins LiWa, LiWa II, LiWa Flow or LiWa Form. LiWa Finish Varnish also strengthens the modellation.

LiWa Finish Varnish is part of a wide range of materials: resins in different consistencies, preformed resin patterns, useful complementary materials for different areas of use as well as functional sets.

Properties:

- Strengthening of the polymerized LiWa modellations
- Smoothening of the surface of cured LiWa
- Easy handling
- Light-curing

Advantages:

- Time-saving
- Enforces LiWa modellations and smoothen their surface.

Indication:

Varnish to strengthen and smoothen LiWa modellations.

Storage conditions: dry and protected from light at 0 - 22 °C

Shelf life: 3 years
